

ECO ALURACK FOR UPRIGHT FREEZERS

The Eco AluRack is a whole new way of making storage racks. At TENAK we are constantly reviewing our products and we have therefore invented this unique rack type. The rack is made of seawater resistant aluminum. The Eco AluRack fits into any freezer and can be used with all standard cryoboxes.

Select from 3 different box heights 50 mm, 75 mm und 100 mm. Our racks can be used with all freezer brands.

The racks below are sold without cryoboxes. They are also offered including standard white cardboard boxes with 9x9 cell dividers.

- Below No. of boxes is expressed by Height x Dept = No. of boxes

Article no.	Box height	HxDxW mm	No. of boxes
TE11232	50 mm	223x564x139	4x4 = 16
TE11274	75 mm	240x564x139	3x4 = 12
TE11302	100 mm	210x564x139	2x4 = 8
