Reliable freezers, that just do the job

# Reliable freezers, that just do the job

At first sight it may look like a traditional freezer for ice cream. However, we have built in something important - namely a very high quality and reliability. This means that the customer can just plug it in and forget about it for years to come - it will simply do its job.

Furthermore, our CSG/CAL-programme is probably the widest on the market. It stretches from the compact CSG 18 - suitable for small outlets - to roomy CSG 73, suitable even for supermarkets. And the many sizes in between ensure that there is something for any need.

The CSG/CAL-range can be fitted with a number of different features and is available in all climate classes.

For many years our quality has proven itself all over the world - why don't you try it too?

The CAL comes with sliding solid lids

A lock is easily mounted

Special baskets for scoop-ice-cream are available

The rigid aluminium-profile makes a strong frame

An easily readable digital thermometer is optional
